PROJECTS

MediFind - Medical Solution Mobile App (React Native)   Sep 2023 - Oct 2023
https://github.com/IT21016202/medifind-medical-solution-mobile-app-react-native

- Medifind is a mobile app for healthcare. It caters to patients, medical centers, blood donors, and doctors. Patients can locate medical facilities, book appointments, order medications, find blood donors, and contact doctors. Medical centers can manage patient orders and their information, while blood donors can register to donate. It streamlines healthcare tasks.

Task Management Web App (Laravel, Vue JS) May 2023

https://github.com/IT21016202/Task-Management-Web-App-Laravel-VueJS

- This application allows users to efficiently manage their tasks by adding, editing, deleting, and viewing tasks. Users can also mark tasks as completed or not. The web app includes a built-in authentication system provided by Laravel for secure access. The user interface is intuitive and user-friendly, ensuring a seamless experience

Natura - Online Ayurwedic Product Selling Platform (MERN) Apr 2023 - May 2023

https://github.com/IT21016202/Natura-Online-Ayurwedic-Product-Selling-Platform-MERN

- The "Natura" web application is an E-commerce platform that specializes in selling Ayurvedic products. It has been developed using the MERN stack. The application leverages Firebase Storage for storing and managing product images

TravelSavvy - Online Tourism Platform (MERN) Apr 2023 - May 2023

https://github.com/IT21016202/TravelSavvy-Online-Tuorism-Platform-MERN

- "Travel Savvy" is an online Tourism Management and culture-promoting system. This project is developed to manage the Sri Lanka tourist section more efficiently and to promote Sri Lankan culture and its diversity to the world.

Instania - Online Food Ordering Application - Andriod Development (JAVA) Jul 2022 - Oct 2022

https://github.com/IT21016202/Online_Food_Delivery_App

- "Instania" is an online food delivery app that allows customers to order customized past foods. It offers features like user registration, order placement, secure login/logout, profile management, and food menu item handling. The app also includes a payment gateway demonstration for convenient transactions.

TECHNICAL SKILLS
